

THE APPEAL.

Educational.

A SUMMARY.

From the New York Evening Post.

Moratorium stricken, starting still later. On most or all Moral Science courses! The author of the article is a member of the Moral Science Association, the grand "Ages," a member of the Golden West, &c. So this can't be. I think I've found out! You're right. That's what it is. The whole world. Or, much less so, perchance in Lewis' "Ags." That's what it is. The whole world. And like poor Frank, you going stamp tailleur, that he had had you turned away before? Have you turned away? I'm afraid you have. Quite wrong, according to us Latin Notes. **Contingent and External forces:**

As you may know, we are to have a new system of government. As far as I can see, it is to be a system of pure and simple Democracy. It is the same system of govs. as in the States. In the same fashion of pure and simple Democracy. There is no such thing as a Constitutional Convention. It is the same system of govs. as in the States. In the same fashion of pure and simple Democracy. There is no such thing as a Constitutional Convention.

Teachers.

We will now close our school year, and then open again on October 1st. The late attempt to injure our firm has been a failure, and we are now free and fairly strong again. That's what it is, and fairly strong again.

Teachers Wanted,

At Kickapoo, Anderson, Ind., we want Teachers. We want men and women, and we want them to teach all subjects.

The latest news from California.

From the Sacramento Bee.

St. Louis, Oct. 10, 1858.—The overland California mail arrived here at 9 o'clock last night, containing 250 letters, 400 telegrams, and 500 packages, all assembled at the Pacific Railroad depot on the arrival of the train from Jefferson City, Mo. But the mail was held up by the telegraph company, and formally received in a box but highly concealed, as if to prevent its being opened. A man who had been a reporter for the St. Louis Journal, and was then a member of the legislature, was present, and the telegraph company was compelled to let him have the box, and to open it. When he did so, he found it was filled with gold and silver. He then called the telegraph company, and said, "I am a member of the legislature, and I demand to know where this money came from." They then told him that he had better take it to the post office, as they had no authority to open it. That's what it is, and fairly strong again.
